Streamline, Automate, and Optimize for K-12 Schools

iSMS is an online cloud-based software, specifically designed and developed to simplify the day-to-day administrative and management tasks of the school. The school management software allows the school to digitally monitor daily activities.

iSMS is configured in modules that significantly assist teachers and staff in keeping school documents, academic history, and other school data. The core and essential modules of the school management software are:

- Student Information System
- Staff Information System
- Fees Management
- Attendance Management
- Academic Management
- Exam results and Marks card
- Messaging System
- Insight with Dashboards

Our software supports multi-school management, and a 24/7 mobile app to support , management, teachers, parents, and students.

Academic Management

Set-up and Manage:

- Classes & sections, education board, and medium;
- Subjects with scholastic and co-scholastic details according to the education board;
- Allocation of subjects to teachers;
- Manage subject and teachers according to their availability.
- Timetables for different classes; and,
- Automated dashboard and SMS announcements or updates to parents, employees and students .

Staff Information System

The staff management module allows you to maintain detailed contact, academic and personal information for the teaching and non-teaching members of the school.

In addition to the core modules, our ISMS supports add-on modules, like:

- Transport Management
- Library Management
- Hostel Management

Insights with Dashboards

Track, monitor, and analyse data to provide operational information using graphical reports and dashboards.

Tailored dashboards provide a 360-degree view of various functions according to the user's privileges.

All the information on the dashboard gets automatically updated in real-time.

Student Information System

You can keep track of data related to student's life cycle from the admission stage to the day student leaves the school.

- Admission
- Personal
- Contact
- Parent / guardian
- Siblings
- Bank
- Others

Attendance Management

The attendance management module keeps a record of student & employee attendance data and tracks the attendance of your class. The software allows you to fill in the attendance online using manual data entry or biometric / RFID. Easily, you can generate an attendance report for any period range.

- Attendance of all students and staffs from one place
- Attendance marking of morning & afternoon sessions
- Online using manual entry or biometric and RFID
- Attendance report for any period

Fees Management

Fees management system to streamline the fees process, keep a real-time track of student fees collection, and generate in-depth reports.

- Multi-level fee structure
- Billing and collection
- Concessions/discounts
- Fine on late fees
- Fee reminders for dues/payment
- Fee receipts

Hostel Management

The hostel management module allows you to manage all the necessary details of the school hostel, like

- Hostel information
- Rooms and beds
- Check-in and Check-out of student
- It is accessible to the administration staff as well as the student.

Exam results / Mark card

You can manage the results of all the students throughout the year by entering the marks of the student, create a report card, and instantly share it with parents and students.

- Results of all the students throughout the year by entering the marks or scores of the student
- Automatically generate mark card using the predesigned template of the school
- Share the mark card to the parent by integrating with the e-mail platform

Messaging System

Parents, teachers, and students stay connected and informed at all times by integrating with the messaging platform. You can send instant alerts and customize the messaging according to the target user.

- SMS
- WhatsApp
- Chat
- E-Mail

Transport Management

In the transport management module, manage the details of the vehicle & driver and route and stops. Route and stops can be allocated to students and staff.

- Vehicle information
- Driver information
- Route and stops
- Transport fees

Library Management

Keep track of all the books available in the library as well as their issue and return.

- Categories and publishers
- Issues and Returns
- Late submission fee

SUPPORT

Help and assistance is available through many channels.

- Chatbot
- Phone
- Email

24/7 access to self-help documents and videos

Training, Support and Data setup assistance by local service providers.
